PERSONAL STATEMENT

I recently graduated from the Strohacker Design School with a Professional certificate in Graphic Design. I am 25 years old and I live in Chichester on the South Coast of England. My inspiration for design came from the small details that I am surrounded by - colours, pattern, shapes, sometimes just need to look, to search deeper what catch the attention. I aim for simple and clear communication based in a strong back story.

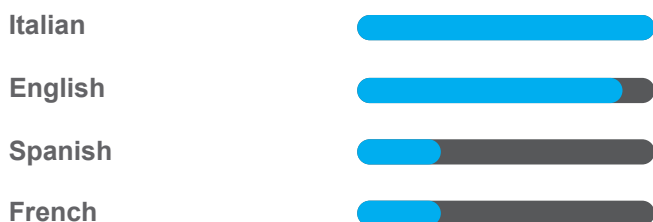

Along my training as Graphic Designer I have a degree in IT, working for several years as a IT expert and Assistant Manager in a small shop in Italy. I also believe is important to have a good understanding of people, brands and spaces in order to design.

I like working with people, specially if they have the same passion I have for what they do.
